

[Clifton Terrace Model School](#) [1]

Student engagement in this media platform is apparent, they love it! From students who need support through to students who require extension, Learnz field trips have been able to be implemented in the classroom to meet all needs. There was parental involvement and interest in this topic, with more learning conversations happening at home. This programme will be picked up in our senior classroom because of the success and engagement from students in my Year 2-4 class.

Katrina Laurie
