

LEARNZ Virtual Field Trip

An Example of a Planning Sequence

This example of a short-term lesson sequence for primary schools makes use of all field trip components for a 3-day virtual field trip.

However, the flexibility of LEARNZ means that teachers can use as many or as few of the components as they wish. Teachers who are involved for the first time may wish to choose just one or two.

Teachers, visit the [Support Section](#) of the LEARNZ website for more information on:

- [Getting started with LEARNZ](#)
- [The ambassador programme](#)
- [Taking part in audioconferences](#)
- [Ask-an-Expert web forum](#)

This plan includes the following components of a **LEARNZ Virtual Field Trip**.

- planning using the online curriculum links
- using online and printable background information
- using online interactive self-marking plus other activities
- using daily field trip diaries with photos and inquiry questions
- using daily field trip video clips and inquiry questions
- using Twitter for live updates and information/thought sharing
- putting questions to experts during live audioconferences
- listening to audioconferences while completing related tasks
- taking part in the Backchannel during audioconferences
- completing audioconference summaries
- posting questions to the LEARNZ Ask an Expert Web Board
- sending a class ambassador, viewing the ambassador's daily web page updates
- corresponding by email with the LEARNZ teacher and the class ambassador
