

# LEARNZ Virtual Field Trip

## An Example of a Planning Sequence

This example of a short-term lesson sequence for primary schools makes use of all field trip components for a 3-day virtual field trip.

However, the flexibility of LEARNZ means that teachers can use as many or as few of the components as they wish. Teachers who are involved for the first time may wish to choose just one or two.

Teachers, visit the [Support Section](#) of the LEARNZ website for more information on:

- [Getting started with LEARNZ](#)
- [The ambassador programme](#)
- [Taking part in web conferences](#)

This plan includes the following components of a **LEARNZ Virtual Field Trip**.

planning using the online curriculum links  
using online and printable background information  
using online interactive self-marking plus other activities  
using daily field trip diaries with photos and inquiry questions  
using daily field trip video clips and inquiry questions  
using Twitter for live updates and information/thought sharing  
putting questions to experts during live web conference  
listening to a web conference while completing related tasks  
taking part in the LEARNZ Meeting Room during a web conference  
completing web conference summaries  
sending a class ambassador, viewing the ambassador's daily web page updates  
corresponding by email with the LEARNZ teacher and the class ambassador  
completing a field trip evaluation
