

Curriculum Area: Science Level 1 & 2 Social Science Level 2	Strand: Nature of Science Place and Environment	Background Page: Managing Risks to Wetlands
Achievement Aims:	<u>Participating and Contributing - Levels 1-2:</u> <i>Explore and act on issues and questions that link their science learning to their daily living.</i> <u>Place and Environment - Level 2:</u> <i>Understand how places influence people and people influence places.</i>	

1. After reading 'Managing Risk', complete this cause and effect chart. The first one is done for you.

2. Now complete the 'Responsible Recreation' chart on the next page. Use the environmental care code to help you. The first one is done for you.

My impact on wetlands

How I can stop it
