

The Sea and Me

By Tana Faifua

The sea makes me feel excited because it feels nice when the waves push me around. I like beating up the waves, but the waves win because they don't go down.

The Sea means to me that it's really relaxing and
Sometimes I am sad and it calms me down.
One day I really want to thank the the
Sea because it makes me happy and I
like that.

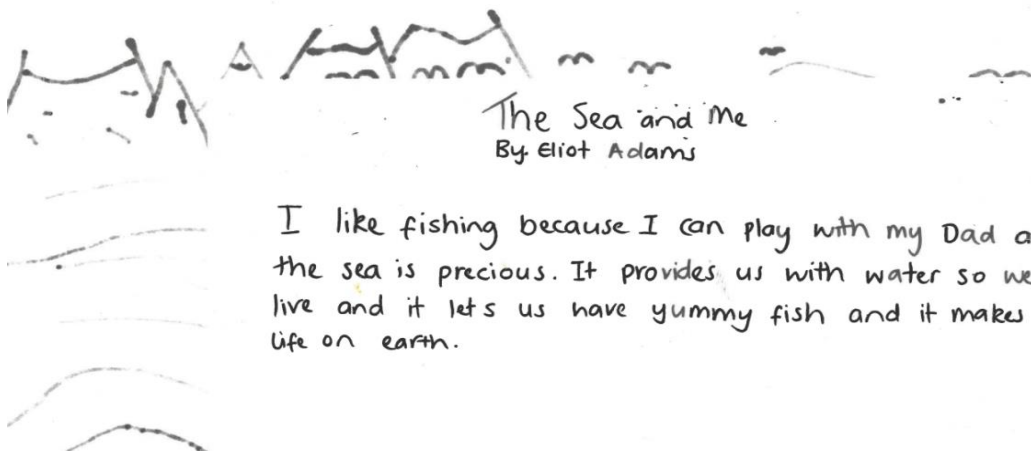

My piece of Art means
peace and calm for me and the animals
in the sea. When I go to the sea it means
fun happiness calmness peace when I am
there nothing matters.

by Harper

the sea and me **MAY!**

I Love the sea and the
Salt on my toes and my
feet I Like Looking at
the sea and Swimming and
I Like Looking at the fish.

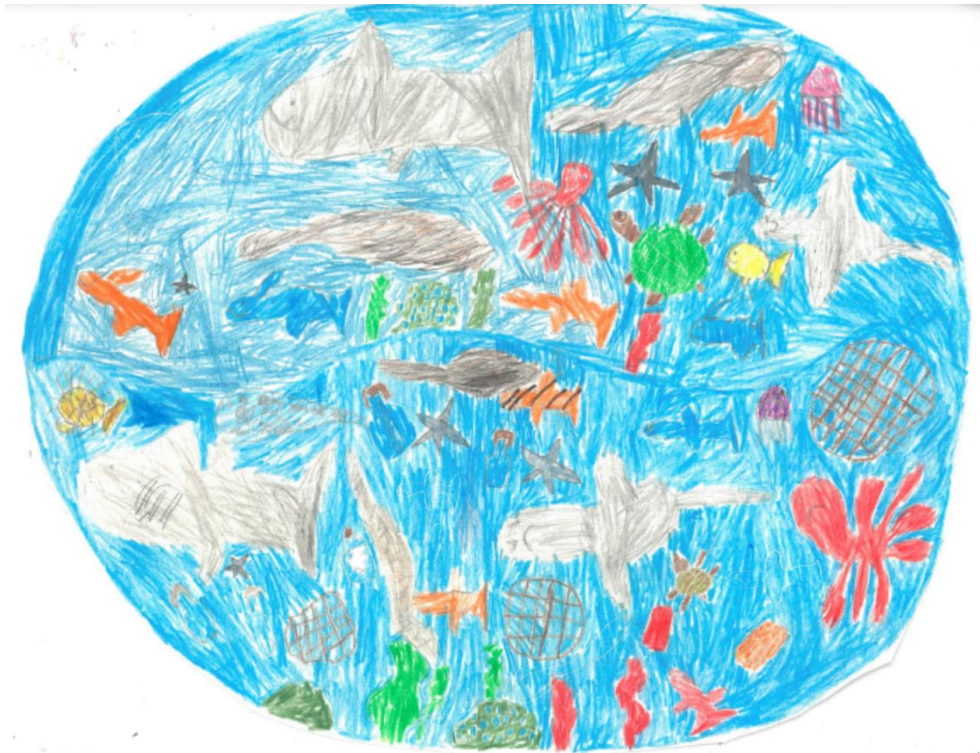

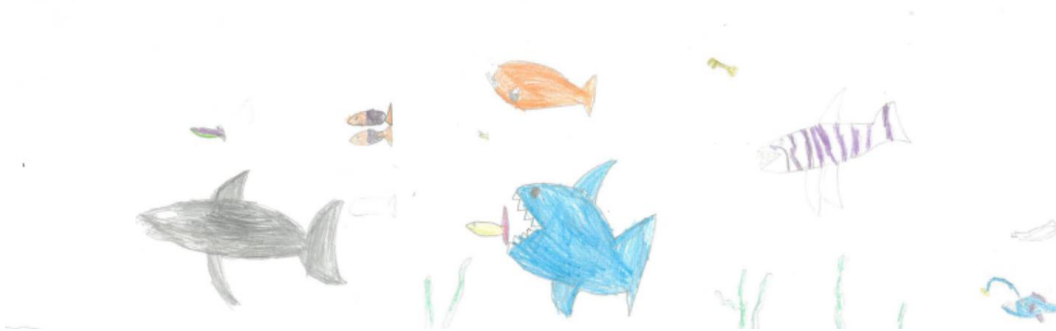

The Sea and Me
By Eliot Adams

I like fishing because I can play with my Dad and
the sea is precious. It provides us with water so we can
live and it lets us have yummy fish and it makes more
life on earth.

I think the sea is amazing, but the sea doesn't think
that about me. I think the sea is amazing because under the
water it is so beautiful because in the night the coral grows (and as well) the
sea animals work for the sea and the other things fish in the water.

This is the sea. The birds in the sky are
 like flying whales. The little crab is coming
 at me! The thing I like about the
 sea is the fact that you can fish and
 nettle detect marine. The sea makes me tingel
 like!
